New Reports

- **EMIS** folder
 - (E15428) In the **EMIS Assessment** subfolder, the new **WebXam Roster Upload** extract includes students if they are actively enrolled in (never dropped or removed from) a course section for a course that is tied to an EMIS subject code associated with an OCTCA assessment code and the students have earned a final mark (pass or fail) in the course section. Districts must send the extract file to the corresponding vendor. When the district receives the returned file from the vendor, they can then select **OCTCA FY20 Only** on the **Assessment Imports** screen to import the records into the **CTE Student Assessment (OCTCA)** screen in StudentInformation to meet the new EMIS reporting requirements for FY20. ([StudentInformation Assessments Guide](#), [Reporting Report List](#))
- **SpecialServices** folder
 - (E14817) The new **School Medicaid Roster** extract provides a list of special education students that is used in the student roster upload process. ([Reporting Report List](#))

Report Updates

- In the **EMIS** folder, the **Gifted Summary** report now lets you select **Y** and/or **N** for the new **Screening, Assessment, and Identified** filters.

Note: Each value you select affects the value(s) available for the next filter value. You must still select the value(s) in top-down sequential order.

Resolved Issues

Assessment folder

- (D15259) Previously, in the **State Assessment Pre-ID** subfolder, the **FY20 - Preschool ELA Pre-ID Enrollment File** contained the prior **elafa19** data collection token. Now, the report contains the new **elasp20** data collection token for the spring testing window.

EMIS folder

- (D13808) Previously, in the **EMIS Assessment** subfolder, the **Assessment Test Name** filter drop-down list on the **State Assessment Report** did not display the expected **ACT** or **SAT** options when at least one student had a corresponding assessment record for the selected school year. Now, the ACT and SAT options display when applicable.

V20.1.0 RELEASE NOTES

Reporting v20.1.0 provides several new features to improve your experience. This overview explains the recent changes.
