

- 1 On the course containing the quiz to which you want to add a fill-in-the-blank question, click **Content**.
- 2 On the **Content** screen, locate and click (or create) the quiz to which you want to add the question.
- 3 On the **Details** tab, click **Questions**.
- 4 In the **Add to Quiz** area, click **Question**.

- 5 In the **Select type** drop-down list, select **Fill in the Blank**.

- 6 Enter the **Question Text** (containing at least one underscore as a blank) and the number of **Points** the question is worth.
- 7 (Optional) If you want to review student responses to this question if they are marked incorrect during autoscoring, select the **Review incorrect answers** checkbox.
- 8 (Optional) If you want responses to be marked incorrect if they do not match the correct answer's capitalization, select the **Responses are case sensitive** checkbox.
- 9 For each **Blank [#]**, enter the acceptable response(s) (click **Add an answer** to add more than one acceptable response).
- 10 Click **Save**.
